

VIDEO SUBMISSIONS

You will need:

- ✓ **A Camera that can capture videos**

This activity allows you and your group to submit video responses to some of the key issues mentioned in the *Foundation Report*, the starting point for the Commission.

If you want to submit a video in a different format, instead of basing it around a discussion, you can do that too. Show us what you think the Commissioners should know about in Croydon.

These are the initial questions asked at the start of the report:

- What should the priorities for the borough be?
- How can the public, private and voluntary sectors work more effectively together to improve outcomes for residents?
- What can we do to better understand, utilise and nurture existing assets?
- What can we do to foster opportunities, particularly in parts of the borough that have too often been missed out?

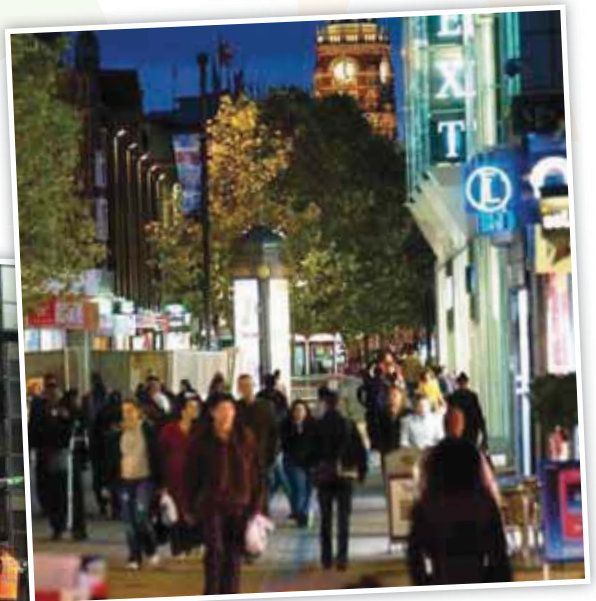

What do you think?

Set up your camera and record your views, or the views of your group.

If you like, you can take your video outside of your group and speak to interview other people, but remember to ask permission.

If you want to speak further about the other questions in the report, you can download it at www.opportunitycroydon.org/resources or freephone **0800 612 2182** to order a paper copy.

SHARE! When you have recorded your video, you can email it to contact@opportunitycroydon.org, upload it to YouTube and email us a link, or tweet a link to it with the hashtag **#OppCroydon**.
